

AirCard® 754S LTE Mobile Hotspot

Now part of the
NETGEAR®
product family

Sierra Wireless AirCard® 754S LTE Mobile Hotspot

THE SIERRA WIRELESS MOBILE HOTSPOT OPPORTUNITY

LTE technology is opening new opportunities for the next generation of mobile computing, multimedia and HD video applications and products. Users can gain a competitive advantage with one of the latest LTE products developed by Sierra Wireless - the AirCard® 754S Mobile Hotspot. With its compact and lightweight design, the AirCard 754S Hotspot provides wireless access at download speeds of up to 100Mbps and upload speeds up to 50 Mbps, so customers traveling globally or at home have the ability to experience the fastest network speeds available and share and manage data with colleagues, friends or family.

ADD VALUE TO YOUR SERVICE

Offer SOHO, enterprise and consumer customers the AirCard 754S Hotspot. It is easy to set up and use and provides the convenience of portable Wi-Fi. The AirCard 754S enables users to share a single broadband connection and extend mobile internet access for up to five Wi-Fi enabled devices. Backwards compatible with existing 2G and 3G networks the AirCard 754S Mobile Hotspot will provide the widest coverage and best possible customer experience as you roll out your LTE network.

ENSURE EASY CONNECTIVITY FOR CUSTOMERS

The AirCard 754S LTE Mobile Hotspot is ready to use out of the box and can minimize support costs with easy setup and connectivity. Using the LCD screen, users turn on the device, access the Wi-Fi network name and password displayed on the screen and get connected. No software installation is required and users can easily manage device status and settings with a web browser anytime.

ENABLE SECURE ACCESS TO INFORMATION

Internet activity through the AirCard 754S Hotspot is safe from unauthorized use and access charges. The default configuration requires no modification and provides a secure connection to the Wi-Fi network ensuring protection for subscriber accounts and data.

DIFFERENTIATE YOUR HOTSPOT OFFERING

Differentiate your AirCard 754S Mobile Hotspot offering or create bundling opportunities with an array of accessories including:

- External MIMO antenna
- Car charger
- Device Charging Cradle
- Extended battery offering 8-12 hours of use

KEY OPERATOR BENEFITS:

- Enhance your LTE offering with the latest mobile hotspot
- Add value to your service by enabling WWAN connectivity to anything Wi-Fi
- Differentiate your hotspot offering with an array of performance-enhancing accessories
- Easy setup, connectivity and usability minimizes support costs

AirCard® 754S LTE Mobile Hotspot

ENABLE ENTERPRISE CUSTOMER PRODUCTIVITY

The Sierra Wireless AirCard 754S Mobile Hotspot helps you offer a solution to enterprises needing cost-effective communication, improved IT administration and support, and security. With easy to use functionality the AirCard 754S creates opportunities for enterprise customers to experience true wireless mobility.

EMPOWER CONSUMERS TO CONNECT MORE DEVICES

Provide Internet connectivity that consumers can share with friends and family virtually anywhere they go. The AirCard 754S Mobile Hotspot connects to LTE networks, is backwards compatible to HSPA+, HSPA and EDGE networks, and connects any Wi-Fi enabled device such as laptops, personal portable media players and gaming devices making it easy to multitask while on the road, at school, or at home.

PARTNER FOR SUCCESS

Sierra Wireless has specialized in wireless technologies for more than 17 years and has a proven track record of developing high quality and reliable products. As a leader in developing and launching products globally, partners trust Sierra Wireless to deliver a broad portfolio of products and solutions to support network and customer requirements.

Technical Specifications

TECHNOLOGY

- Supports for 100Mbps download, 50Mbps upload (LTE Category 3)
- UMTS 850/1900/2100 MHz
- GPRS EDGE Class 10/12
- Standalone and assisted GPS
- Wi-Fi 802.11b/g/n

DIMENSIONS

- 57 mm x 96 mm x 16.5 mm

WEIGHT

- 100g

SINGLE SYSTEM REQUIREMENTS:

- Web browser may be required for first time setup

APPROVALS

- FCC
- Wi-Fi Alliance certification

Technical specifications subject to change.

ENTERPRISE MARKET OPPORTUNITIES:

- Satisfy IT manager and end user needs with a device that requires minimal support
- Throughput speeds enable efficient information exchange of high resolution files
- Differentiate your product offering with performance-enhancing accessories

CONSUMER MARKET OPPORTUNITIES:

- Enable users to connect to the fastest 4G networks
- Encourage multiple users to try the latest technology and connect multiple devices to share information with peers
- Provide a superior LTE user experience and an alternative to a home broadband connection
- Satisfy consumer needs with convenient features like an LCD screen, GPS support and accessories
