

Online Data Protection and Disaster Recovery for Connected Homes

Every moment, precious. Every photo, priceless. Every document, irreplaceable. Why leave your data to chance?

Simple Account Setup

Setting up an online backup and disaster recovery plan for your connected home has never been easier. Enable ReadyNAS Vault on your system, create an account and you're ready to go. No additional agents to install or per user license to pay. Simply determine what you want protected and ReadyNAS Vault will save an online copy of your file automatically. You can even confirm results, make changes and recover files from one or multiple ReadyNAS systems using an Internet connection.

- All ReadyNAS Ultra includes 2 GB for two years*
- All ReadyNAS Duo/NV+ come with a 30-day trial
- Additional capacity available on demand

Real-time backup

Get immediate data protection for new and modified files, or schedule backup jobs to run at specific intervals so that your data is moved off-site when it is most convenient for you.

Secure data management

Embedded in all ReadyNAS systems, ReadyNAS Vault ensures that your data is kept private and secure during transmission as well as when it is stored online. Management requires only a web browser and a few clicks. You can even share online files with friends and family directly from your ReadyNAS Vault account.

Quick Data Recovery

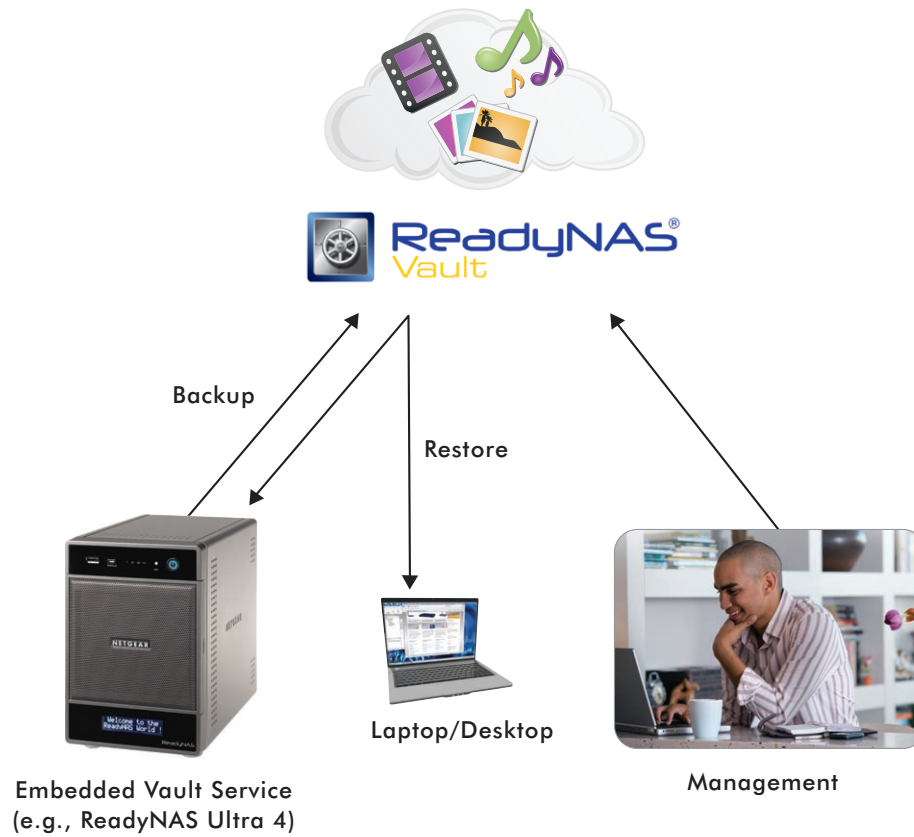

Browse to the files you need and replace them on your ReadyNAS with a click. No need to worry about software versions or media management hassles -- just browse and replace.

Comparison Chart

ReadyNAS Vault	Other Methods
No server or PCs required	Server and/or PCs always on
No agent or option licenses	Costly agents and option licenses
Remote management from anywhere	Local management only
Manage multiple systems from single point	

ReadyNAS Vault for Home
