

Move the digital experience from your computer to your TV

Now with the NETGEAR Digital Entertainer (EVA700), you can enjoy your digital videos, photos and music with the upgraded video and audio quality of your home entertainment system or TV. The NETGEAR Digital Entertainer makes it easy to seamlessly access thousands of digital media files from your computer for viewing and listening in the comfort of your family room.

Stream videos, music & photos

The EVA700 connects your TV or home entertainment system to your home computer network, streaming digital movies, videos, music, radio and photos from your PC. It can also access thousands of digital files stored in your NETGEAR Storage Central (SC101) device. You can play streaming media content, such as music and video from the Internet, by connecting to your home network and router. You can even play files saved on a USB storage device such as an iPod™, USB thumb drive, USB disk, and some digital cameras with a USB interface by connecting to the front USB port of the Digital Entertainer.

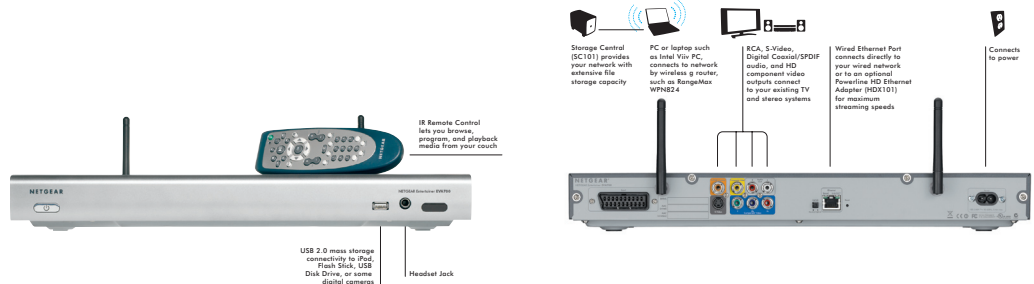

Intel Viiv™ ready

The NETGEAR Digital Entertainer is Intel® Viiv verified, so you can take advantage of Intel's new platform for digital entertainment. The Digital Entertainer EVA700 supports seamless access to content, applications and services available on Intel Viiv technology-enabled PCs. It also supports access to content on Microsoft® Windows® Media Center PCs through Windows Media Connect, and other universal plug-and-play (UPnP AV) media servers, such as TwonkyVision. Use the wired ethernet port to connect the EVA700 directly to your wired home network, or add the optional Powerline HD Ethernet Adapter Kit (HDXB101) for high quality video and maximum streaming speeds across multiple rooms.

Easy on-screen selection

The NETGEAR Digital Entertainer enables easy, remote control access to digital media files on your home network, as well as from popular Internet sites without leaving your couch. When combined with NETGEAR's Powerline HD Ethernet Adapter (HDXB101 two-in-one kit and HDX101 standalone, both sold separately), you can use the Digital Entertainer EVA700 in any room of your home, regardless of where your computer is located. You'll enjoy excellent quality and stable, consistent video streaming.

Digital Entertainer EVA700

Maximum wireless signal rate derived from IEEE Standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate.

Bring all your digital content from your PC directly to your TV

EVA700 connects your own TV or home entertainment system to your home network and delivers a world of new media enjoyment.

System Requirements

- Microsoft® Windows® XP
- Minimum Intel® Pentium® 500 MHz processor, 128 MB memory, and 20 MB free disk space on at least one PC
- 2.4GHz wireless adapter or Ethernet adapter with cable for a least one computer
- Broadband Internet service (recommended)
- Intel® Viiv™ Technology-enabled PC (recommended)

Network Connections/Speeds

- Wired LAN: 10/100 Mbps Ethernet, RJ-45
- Wireless 11g: 1, 2, 5.5, 6, 11, 12, 24, 36, 48, 54 Mbps
- Dual 2 dBi antenna for better wireless reception
- Supports Intel® Hub Connect Technology for simple connection to a home network.

Security

- Hardware-based Wired Equivalent Privacy (WEP) 40/64-bit & 128-bit encryption
- WPA-PSK (WPA-Personal) and WPA2-PSK (WPA2-Personal)

Standards Compliance

- 802.11g standard compliant (connects to 802.11b or 802.11g networks)
- Intel® NMPR 2.0
- UPnP AV

Digital Media File Formats

- MP3s up to 320 Kbps or variable bit rate (VBR)
- WMA8 and WMA9 files up to 192Kbps or variable bit rate(VBR)
- WMV up to 1080p (down-converted)
- Internet Radio (streaming MP3)
- Video Formats: MPEG1, MPEG2, MPEG4, AVI, WMV, Xvid
- Audio Formats: MP3, WAV, WMA, M3U, AAC
- Photo Formats: JPEG, BMP, PNG, TIFF, GIF
- Playlist Formats: M3U, PLS

Physical Specifications

- Dimensions (HxWxD): 50.8 x 431.8 x 254 mm (2 x 17 x 10 in)
- Weight: 2.0 kg (4.4lbs)

Power Supply

- EVA700 can accept 100-240V, 50-60Hz, 0.4A maximum

Input/Output

- RCA connector for composite
- RCA connector for component (high definition up to 1080i)

- S-video port
- SCART connector for regions that require it
- Stereo RCA audio ports
- Digital coaxial S/PDIF audio port
- Ethernet port
- USB 2.0 port

Warranty

- NETGEAR 1-year warranty (North America)
- NETGEAR 2-year warranty (rest of world)

Package Contents

- Digital Entertainer (EVA700)
- Infrared (IR) Remote Control (2 AA batteries included)
- Power cable, localized to country of sale
- Ethernet cable
- RCA stereo-audio/composite-video cable
- Installation guide
- Resource CD
- Warranty/Support Information card

Attention: When you configure the wireless settings of this device please make sure to select the correct country settings. Due to EU-law the country settings must be identical to the country, where the device is operating (important due to non-harmonized frequencies in the EU).802.11g Restrictions: European standards dictate maximum radiated transmit power of 100 mW EIRP and frequency range of 2.400 - 2.4835 GHz. In France, the equipment must be restricted to the 2.4465 - 2.4835 GHz frequency range and must be restricted to indoor use.

*Free basic installation support provided for 90 days from date of purchase. Advanced product features and configurations are not included in free basic installation support; optional premium support available.

**Actual performance may vary due to operating conditions
