

Shareable, Expandable Storage Accessible by All PCs on Your Network

- Decide how much storage you need and add 1 or 2 IDE hard drives of any capacity
- Make room on your hard drive by moving photos, music, video files
- Easily networked for all your home PCs to use
- Dual disk drives “mirror” each other for safeguarding of important files

**Features**

Add the storage capacity you need to share and backup your valuable digital content; music, games, photos, videos, and office documents—instantly, easily and securely.

- Expandable shared network storage for all your home’s PCs
- Houses one or two IDE hard drives of any capacity (sold separately)
- Backs-up and secures critical files by automatically synchronizing with PC’s hard drives
- Simple installation with Smart Wizard™ Installation Assistant

**Benefits**

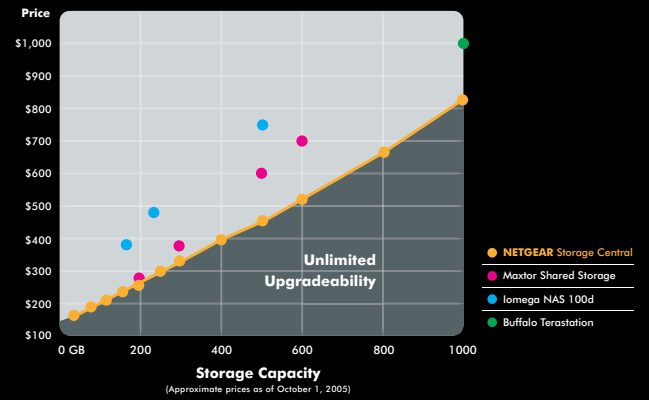

- Selecting your own IDE drives saves money
- Easy to use- looks just like a new hard drive was installed on your PC
- Automatically detects and backs-up valuable PC files
- Expandable by adding larger IDE hard drives or additional Storage Central units

Side-by-Side Comparison of Storage Products

Features	USB External Disk Drive	Single-Drive NAS <sup>1</sup>	Storage Central (SC101)
Connects to the home router		•	•
Embedded mirror/data protection			•
Expands capacity of existing drives			•
Appears as local disk/drive letter	•		•

Allows any IDE drive from any vendor			•
Includes backup software			•

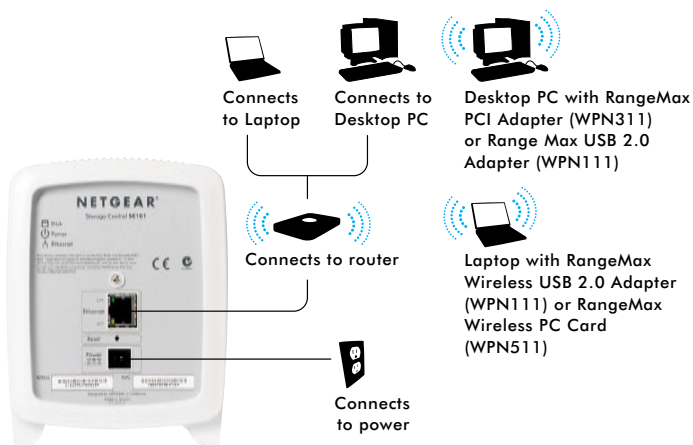

<sup>1</sup>Such as Maxtor Shared Storage, Iomega NAS 100d, Linksys NSLU2, Mirra Personal Server, Buffalo Linkstation

The Most Flexible and Upgradeable Device with the Lowest Price

**Shareable, expandable storage**

NETGEAR's Storage Central is an innovative product for storing and protecting music, games, photos, videos and other important files on a secure device. Simply insert one or two 3.5-inch IDE drives of any capacity from any vendor (sold separately) into Storage Central then connect Storage Central to any router or switch and Smart Wizard takes care of the configuration. Storage Central functions like a local disk drive but without requiring a dedicated PC.

**Storage Central Turbo: your network's virtual warehouse****System Requirements**
