**What’s in the Box**
- Nighthawk 5G Mobile Hotspot with pre-installed SIM card
- Battery cover
- Battery
- USB Type-C cable
- AC adapter
- Quick start guide

**Set Up Your Mobile Hotspot**
1. Press and hold the **Power** button for 2 seconds.

   To better safeguard your network, the first time you turn on your mobile hotspot, you are asked to set up your login credentials.

2. Follow the onscreen instructions to customize your mobile hotspot settings.

**Get to Know Your Mobile Hotspot**

- Touch screen
- Touch to navigate
- Home
- Back
- Power button
- USB C port

**Install the Battery**
1. Insert the battery.

2. Install the back cover.

   The battery is partially charged. To fully charge it, connect the USB cable to the mobile hotspot and then plug into either:
   - A wall socket, using the wall charger (faster charge option)
   - The USB port on your laptop

   **Note:** The mobile hotspot comes with a preinstalled SIM card. The SIM must be activated to a data plan with AT&T.

   **Connect to the Internet**
   **On your laptop or other WiFi device**
   1. Open your WiFi network connection manager.
   2. Find your mobile hotspot’s WiFi network name (ATT-WIFI-XXXX) and connect.
   3. Enter your mobile hotspot’s WiFi password.
   4. Launch your Internet browser.

   **Note:** The screen goes dark to save power. Press and release the **Power** button to wake the screen.
LCD Screen
When the Lock screen displays, swipe up to go to the Home screen.

The network indicator lets you know which AT&T wireless network you are connected to.

LCD WiFi Manager
You can manage the WiFi network from the LCD screen.

Change the WiFi network name and password
1. On the home screen, tap the WiFi icon.
2. Tap Band.
3. Select the 2.4 GHz or 5 GHz WiFi band.

LCD Settings
View or change the settings
On the home screen, tap the Settings icon.

WiFi Manager
You can use a browser to view and change the mobile hotspot settings.

Log In
2. Log in as administrator.
   The default login is attadmin.
