

## Connect your Network with Style

Traditional switches are not designed to be installed in a living room, bedroom, or office desk, so usually we hide them because the design is not user-friendly – they have flashing LED lights and a bunch of cables that we don't want to see.

NETGEAR tackles this problem head-on with the industry's first consumer-friendly switch with integrated cable management. The 900 Series switches are the first switch that you want to display!

Thanks to the stylish design and the built-in cable organizer, you will keep your office and home neat and tidy. Moreover the LED ON/OFF button will keep your environment quiet so no light will disturb your movie, work or sleep.

## Key Highlights

### Integrated Cable Management

Keeps your office and home neat and tidy, with organized cables.

### Silent and Invisible

Innovative, fanless design with an on/off LED light button.

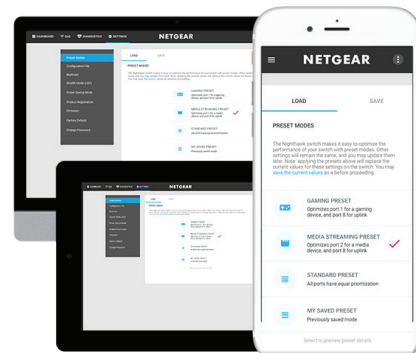

### USB charging ports \*

Conveniently placed to allow you to charge your smartphone and tablet

### Easy to use web interface\*

Intuitive and simple, with rich and advanced functions.
